

### Communication and Language

We will be spending each week of the half term looking at our Super 7 stories, starting with After the Fall. We will update you each week with our book of the week.

### Literacy

Miss Hanlon and Miss Crick will continue work with us every day on a short phonics task- we are getting very good at this now and know lots of sounds. After we have looked at our Super & books we will be reading lots of stories about seaside, holidays and weather.

### Understanding of the world

We will be learning all about different things we can see at the seaside, weather and holidays- learning lots of new vocabulary. We will understand some important processes and changes in the natural world around them, including the seasons.

### Mathematics

As mathematicians we will continue to work on practicing numbers and counting. Some of us will be adding and subtracting and working on our number bonds. As well as our continuous provision activities we will be having a short daily maths number session- Max's Marvellous Maths!

### Physical development

In PE we will continue to move energetically, such as running, jumping, dancing, hopping, skipping and climbing. We will take part in dough disco and Letter join to help us to hold a pencil effectively in preparation for writing independently. We will also host our sports day in June.

### Personal, social and emotional development

We will try to be confident to try new activities and show independence, resilience and perseverance in the face of challenge. We will continue to form positive attachments to adults and friendships with peers.

### Expressive arts and design

We will continue with our creative makes to encourage us to safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function.
